Virtual Learning Enrollment Form

Parents/Guardians:

In addition to our Traditional Learning Model, the Terrebonne Parish School System is offering an alternate Full Virtual Learning Model beginning with the 2020-2021 school year. Information regarding the traditional and full virtual learning models can be found below.

Traditional (in-person - on-campus)

The traditional model of learning is where students attend school at the school building every day with a traditional schedule. This model is best for students who thrive with routine and lots of social interaction. This model is also beneficial for students who prefer more engagement and hands-on activities.

Full Virtual

In the full virtual model students will be assigned to the school in the zone in which they live; however they would be fully virtual and work strictly from home. The model is best for students who work well independently and are self-motivated. If this model is chosen, your student is responsible for any and all work assigned by their teacher. This work will be graded and will determine passing and failing of their specific grade level/courses.

To participate in this learning model, you must be enrolled in the Terrebonne Parish School District. If you are not currently enrolled, you must complete a new student enrollment packet along with this form and return it to the Central Office. This can be found on Terrebonne Parish School District's website or at Terrebonne Parish Central Office.
